Hi Jennifer –

We are finishing up the Draft Permit for Specialty Minerals and would like to invite you, as the DEP reviewer, to a meeting to discuss the permit limits and any changes prior to beginning your review. Our hope is that the pre-review discussion will facilitate your review and head off additional questions later on.

As SMI was the third of our group permits (similar to Granite, which I think you reviewed), I would like to have the team present for the meeting. We hold our team permitting workshop on Thursdays. Would you be available any time after 12 on Thursday, March 28? I was hoping you could come to EPA, but we might be able to set up a conference call if that works better.

Thanks!

Danielle
